So, it's down to this
Your bags are packed, you're at the door
Girl how sad it is
You're telling me it's over
Words don't come in an easy way
But now we're face to face
And all that I can say is

Chorus:

Roxann, don't go
Can't we try and work it out
Isn't that what love's about
Roxann, I know
That I'd be a broken man
If you turn me away
Baby, won't you stay

So, you're serious
You just don't feel it anymore
Baby, look at us
We used to have forever
Let's not talk about who's to blame
I need you back on my side
There's got to be a way

-Repeat chorus-

Guitar solo

Let's not talk about who's to blame
I need you back on my side
There's got to be a way to your heart, to your heart

-Repeat chorus- with variations
